

## Solar park inauguration ceremony

Thursday, May 11th

11:30 - 13:00

Outside Nisou, 15 km from Nicosia - see [map](#)

One of a cluster of five brand new solar plants, financed by the EBRD, will be Thursday, May 11th.

During an official ceremony, a 1.5 MW solar power plant in Nisou will send its first electricity into the national grid in the presence of the Minister of Finance of Cyprus, Harris Georgiades; the Minister of Energy and Commerce, Yiorgos Lakkotrypīs; and EBRD Managing Director for Energy and National Resources, [Nandita Parshad](#).

See [EBRD press release](#) about the signing of the project to finance the 5 solar plants.

The EBRD is the largest financier and enabler of renewable energy generation in its region of operations. To date, we have invested about €5.4 billion into renewables, both directly and via credit lines to local commercial banks.
